

GDCB 545 – Fall 2019 – 3 credits

# PLANT MOLECULAR, CELLULAR AND DEVELOPMENTAL BIOLOGY

TUESDAY & THURSDAY, 9:30 AM – 10:50 AM

Recent advances in: Cellular Dynamics – Morphogenesis  
Gene Expression – Abiotic Signaling - Hormones

For graduate students looking to delve into the primary literature, develop grant writing skills and understand molecular mechanisms governing plant biology

Instructors: Joe Aung, Steve Howell, Dior Kelley
